Architect Council of Thailand Joins Hands with Araya Expo in Staging Architect Forum 2019

General Press Releases Tuesday December 4, 2018 12:27

Architect Council of Thailand Joins Hands with Araya Expo in Staging Architect Forum 2019 The Grand Event to Feature Architects from All Fields, Latest Trends PLUS Innovative Building Materials from Famous International Brands

The Architect Council of Thailand, in collaboration with Araya Expo, announces its plan to organize "Architect Forum 2019" that will not only bring together architects from all of Thailand's architectural fields but also showcase design innovations and latest building materials. To be held at IMPACT Challenger, Bangkok, the event will run from 14 to 17 November 2019.

Admiral Thanit Kittiampon, President of the Architect Council of Thailand (ACT), says, "We will organize Architect Forum '19 as our first international architect forum and building technology exposition to present advanced knowledge for architects as well as innovative building materials between 14 and 17 November 2019. To span over more than 20,000 square meters at IMPACT Challenger, Bangkok, the expo aims to update people in the architecture and construction industry about happenings in all four architectural fields. The event will also serve as a forum for the display of architectural/design creativity. Visitors will get academic knowledge from our exhibitions, seminars and exhibitors. Operating the booths at our event will be leading brands of not just Thailand but also the world. We have chosen Araya Expo Company Limited as the organizer of the Architect Forum '19 , because the firm has long been specialized in organizing building materials exposition".

"Architect Forum '19 will stand out from other fairs, because it will bring together Thai architects from all fields. The forum will mark the biggest gathering of architects. At present, the Architect Council of Thailand has had more than 30,000 members. Their fields cover Architecture, Urban and Regional Planning, Landscape and Interior Design. So, we are the biggest association of architects and related professionals in Thailand and our forum will be the biggest gathering of people in these fields too," he continues.

Mr. Prakit Phananuratana, who chairs the organizing committee for Architect Forum '19 , says, "As the Architect Council of Thailand has usually conducted occupational training for its members, we will make sure that the Architect Forum will present academic conferences and seminars on architecture too so as to promote the exchanges of knowledge, ideas, and skills among architects and interior designers. In addition, we will offer membership-renewal services and various privileges at the upcoming forum for the benefits of people working in the fields. With support from various organizations, architectural exhibitions will also be included to create inspirations and spur creativity for architectural works. On top of this, we have also planned various other interesting and useful activities for our target visitors".

Mr. Supaman Munka, Project Director of Araya Expo or the Exposition organizer, says, "Architect Forum' 19 will be held late next year. We have chosen to organize the expo late in the year because it is the best time for building material manufacturers and distributors to launch their innovative products or technologies for architects, real-estate developers, contractor, engineers and professionals in the fields to update themselves and get new ideas for interior designs, constructions, and project development. We have had a comprehensive database of the forum's target groups in hand. It covers both exhibitors and visitors in Thailand and overseas. Even though the upcoming Architect Forum will be the first such event in Thailand, we expect to attract more than 500 exhibitors from 30 countries across the world. Over 50 leading companies have already confirmed their participation in our event. If you are interested in reserving exhibit space at the Architect Forum '19 , please browse to www.ArchitectForumExpo.com or call 0-2318-4689".
